Release Date : 6/29/2019

Revision #1

6/29/2019

### High level goals:

- Function to search dining halls/cafes based on tags and rating. (4)
- Get directions to the dining halls/cafes by implementing google maps. (4)
- Allow user to sign up and login. (5)
- Allow the user to see the menus, location and hours of operation. (8)

### User stories for release:

- Sprint 1
  - (8) As a user, I want to see the menu and hours for each dining hall and cafe in UCSC so that I can choose which dining hall to go to.
  - (6) As a user, I want to be able to search across all eateries for a desired meal.
- Sprint 2
  - (7) As a user, I want to obtain accurate info on ingredients, and dietary needs of food, and locations to cafes and dining halls so that I know which place I want to go.
  - (5) As a user, I want the apps I use to be well structured, and easily learnable so that I can easily use this app.
- Sprint 3
  - (5) As a user, I want to have an account so that I can store my preference choice of food which makes it easier to see which dining hall/cafe are serving that food.
  - (4) As a user, I want the app to notify me when specific meals become available at the Dining Halls.

**Product Backlog:**

- As a user, I want to write a review of the Dining halls of the day so that I can share my thoughts and tell other users how's the dining hall today. (1)
- As a user, I want to rank one type of food among five dining halls so that I can tell other user which dining hall is the best choice. (2)
- High-level goals: Be able to comment on dining halls/cafes. (4)
- High-level goals: Be able to rank food in a rating system (5)
